

Welcome!

President Prof. Akira Senda

Dear Member Presidents, Officers and IFED Members,

I would like to warmly welcome you and encourage you to read the content of our communication. This newsletter is one of the many new innovations that will be applied in the immediate future, aimed at enhancing the prestige of our global organization.

I hope that you take the time to distribute the newsletter to your membership and your comments re the content would be greatly appreciated .

We remind you of our email address: infoifed@gmail.com

The ExCo Meeting - Cologne 2015

On the morning of Saturday, March 14th 2015 the IFED Executive Council held their annual meeting, under the Presidency of Prof. Akira Senda, boasting a 100% attendance of members. The usual officer reports were presented fairly rapidly, and the majority of the morning was spent in discussing ways to improve the branding of IFED as well as introducing vehicles to improve communication within IFED. The following actions were suggested and are being implemented. A Facebook Social Page will be established in which all members will be encouraged to comment and

report news about their own status; A monthly Newsletter will be sent to the membership; A vastly improved and more meaningful website is being developed; A second Facebook Page to feature clinical cases will follow. Finally discussion groups (Google; LinkedIn) will be established for the use of Member leaders to hold forums.

Annual General Assembly - Cologne 2015

The G. A. of the IFED Membership was held on the same day in the afternoon. A detailed report of this meeting will be distributed in the minutes. An exciting and interesting presentation about the upcoming meeting in Cape Town (5th-7th November 2015) was shown during the conference. In a similar fashion as in the ExCo meeting the majority of discussion involved branding of IFED, and how IFED could improve assistance to the membership particularly in aiding success of local scientific meetings.

- Please make a note of the following two important dates:
1. IFED 9th World Congress Cape Town 5-7 November 2015
 2. Annual General Assembly, Chicago, USA, 27th Feb., 2016

Coctail party - Cologne 2015

The General Assembly was followed by a cocktail party, sponsored in total by the GC Company. This proved to be the usual excellent medium for much serious and humorous discussion, with the old comradeship firmly reestablished and friendships strengthened.

In the picture: Dr Miguel Roig, our President Prof. Akira Senda, Prof. Jaime A. Gil and Dr Ignacio Rodriguez.

HOT NEWS ABOUT IFED WORLD CONGRESS IN CAPE TOWN 2015

THE BIG 5
A PARADIGM SHIFT

Important announcement for the Membership – we are waiting for official suggestions and/or applications from Members who might wish to host the IFED XI World Congress in 2019. All information is available from the Secretary David Klaff and Amanda Pourbakhtiari at infoifed@gmail.com.

We are very happy that this year Amanda Pourbakhtiari has joined us in the role of Administrative Secretary and we encourage you to contact her to discuss any issues you might have where IFED can be of assistance.

Interestings facts from the IFED past

On behalf of our President we would like to encourage you all to share with us interesting facts about our Federation, especially our early dates from the 90'. We already know that one of the founders, Dr. Jaime A. Gil experienced two births at the same time. On 30th April 1994 the IFED was born as was his youngest son. Jaime had to resign from the meeting in Florence, so he will never forget the IFED creation date. It makes us think, each time we look at Jaime's adult son, how long we have existed as the global organization.
